Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 4 refer to “the substance” which lacks antecedent basis.

Claim 7, lines 7-8, use the phrase “into the liquid” twice which is deemed confusing.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by FI 98832.

Tikkanen et al. teach applicant’s claimed invention. See the abstract and claims of FI 98832.

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 1731

A person shall be entitled to a patent unless -

(d) the invention was first patented or caused to be patented, or was the subject of an inventor's certificate, by the applicant or his legal representatives or assigns in a foreign country prior to the date of the application for patent in this country on an application for patent or inventor's certificate filed more than twelve months before the filing of the application in the United States.

6. Claims 1-20 are rejected under 35 U.S.C. 102(d) as being barred by applicant's Finnish patent FI 98832.

The Finnish patent was granted on August 25, 1997 which is more than year before the earliest priority date in this US National Stage application. Also, the Finnish application from which the Finnish patent issued was filed on September 15, 1995, which is more than 12 months before the effective filing date in the US. Also, the inventors are the same in both the US application and the Finnish patent.
